

## REMARKS

Claims 120-175 are pending. Claims 130-146 are under consideration, claims 120-129 and 147-175 having been withdrawn in the Office Action. With this Amendment, claims 120-124, 129-130, 133, 145, 162, 164 and 165 are currently amended, and claims 135, 166 and 171-175 are being canceled, without prejudice against their reintroduction into this or one or more timely filed continuation, divisional or continuation-in-part applications. New claims 176-182 have been added. Thus, after entry of this Amendment, claims 130-134, 136-146 and 176-182 are pending and under consideration. The amendments of the claims and new claims and the rejections raised in the Office Action are discussed in more detail, below.

The specification has been amended to correct a clerical error. No new matter is believed to have been added by virtue of this amendment.

Applicants note with appreciation that claims 136-146 are allowed. Applicants respectfully request reconsideration and allowance of claims for the following reasons.

### 1. Amendments of the Claims

Claims 120-124, 129-130, 133, 145, 162, 164 and 165 have been amended. No new matter is believed to have been added by virtue of the amendments to the claims. The amendment to claim 130 is supported by, *e.g.*, page 4, lines 1-12 and page 18, line 13 through page 19, line 12 of the originally filed specification. The amendments to claims 123, 133, 145, 162, 164 and 165 are supported by, *e.g.*, page 12, lines 3-14 of the originally filed specification. The amendment to claim 129 is supported by, *e.g.*, originally filed claim 23. Claims 120-122 and 124 have been amended to correct clerical errors. Support for new claims 176-182 can be found, *e.g.*, on page 10, lines 9-13 and lines 29-30 of the specification as originally filed.

### 2. Objections to the Claims

Claims 130-135 are objected to (Office Action, page 2) as containing non-elected subject matter. In response, independent claim 130 has been amended to recite a compound of formula (II) and a compound of formula (I). Claims 130-134 now fall within the scope of the invention of Group I, as

defined in the Requirement for Restriction mailed May 20, 2010. Therefore, Applicants respectfully request that the objection be reconsidered and withdrawn.

3. **Rejection Under 35 U.S.C. § 112, Second Paragraph**

Claims 130-135 are rejected under 35 U.S.C. § 112, second paragraph (Office Action, page 2) as allegedly being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention. As independent claim 130 has been amended to recite a compound of formula (II) and a compound of formula (I), the rejection is now moot with respect to this claim and dependent claims 131-134. Likewise, as claim 135 has been canceled, without prejudice against its reintroduction into this or one or more timely filed continuation, divisional, or continuation-in-part applications, the rejection is now moot with respect to this claim.

Therefore, Applicants respectfully request that this rejection be reconsidered and withdrawn.

4. **Conclusion**

Reconsideration of the claims in light of the amendments and remarks above is requested.

Claims 130-134, 136-146, and 176-182 are believed to satisfy all of the criteria for patentability and are in condition for allowance. An early indication of the same is therefore kindly requested.

No fees are believed to be due in connection with this Amendment. However, the Director is authorized to charge any additional fees that may be required, or credit any overpayment, to Dechert LLP Deposit Account No. 50-2778 (Order No. 379612-250US (397490)).

Respectfully submitted,
